THE STÛV 16 D4

stûv

THE ESSENTIAL FIRE

The Stûv 16 D4

A sober and elegant solution combining a stove and a log store.

The whole unit can be integrated on a wooden Stûv base or on any other customised base.

In stone, metal, wood or “homemade”, let your imagination run wild!

Choose a compact or panoramic configuration, the Stûv 16 D4 is available in 3 sizes.

The Stûv base made of locally sourced oak is a ready-to-use option that blends harmoniously into any interior.

On the cover:
Stûv 16 D4 with customised
metal base and white paint finish
Picture above:
Stûv 16 D4 with wooden base
(standard model)

Sleek design, minimalist... the Stûv 16 D4 is a natural addition to the Stûv 16 family.

Semi-integrated into the base, the Stûv 16 D4 seems to float above its base. Our dealers will be happy to advise you on your customised project.

Sizes

- The Stûv 16 D4 is available in 3 sizes, with 58 cm, 68 cm and 78 cm stoves.
- The log storage can be positioned left or right of the stoves.
