Fusing luxury design with visual technology

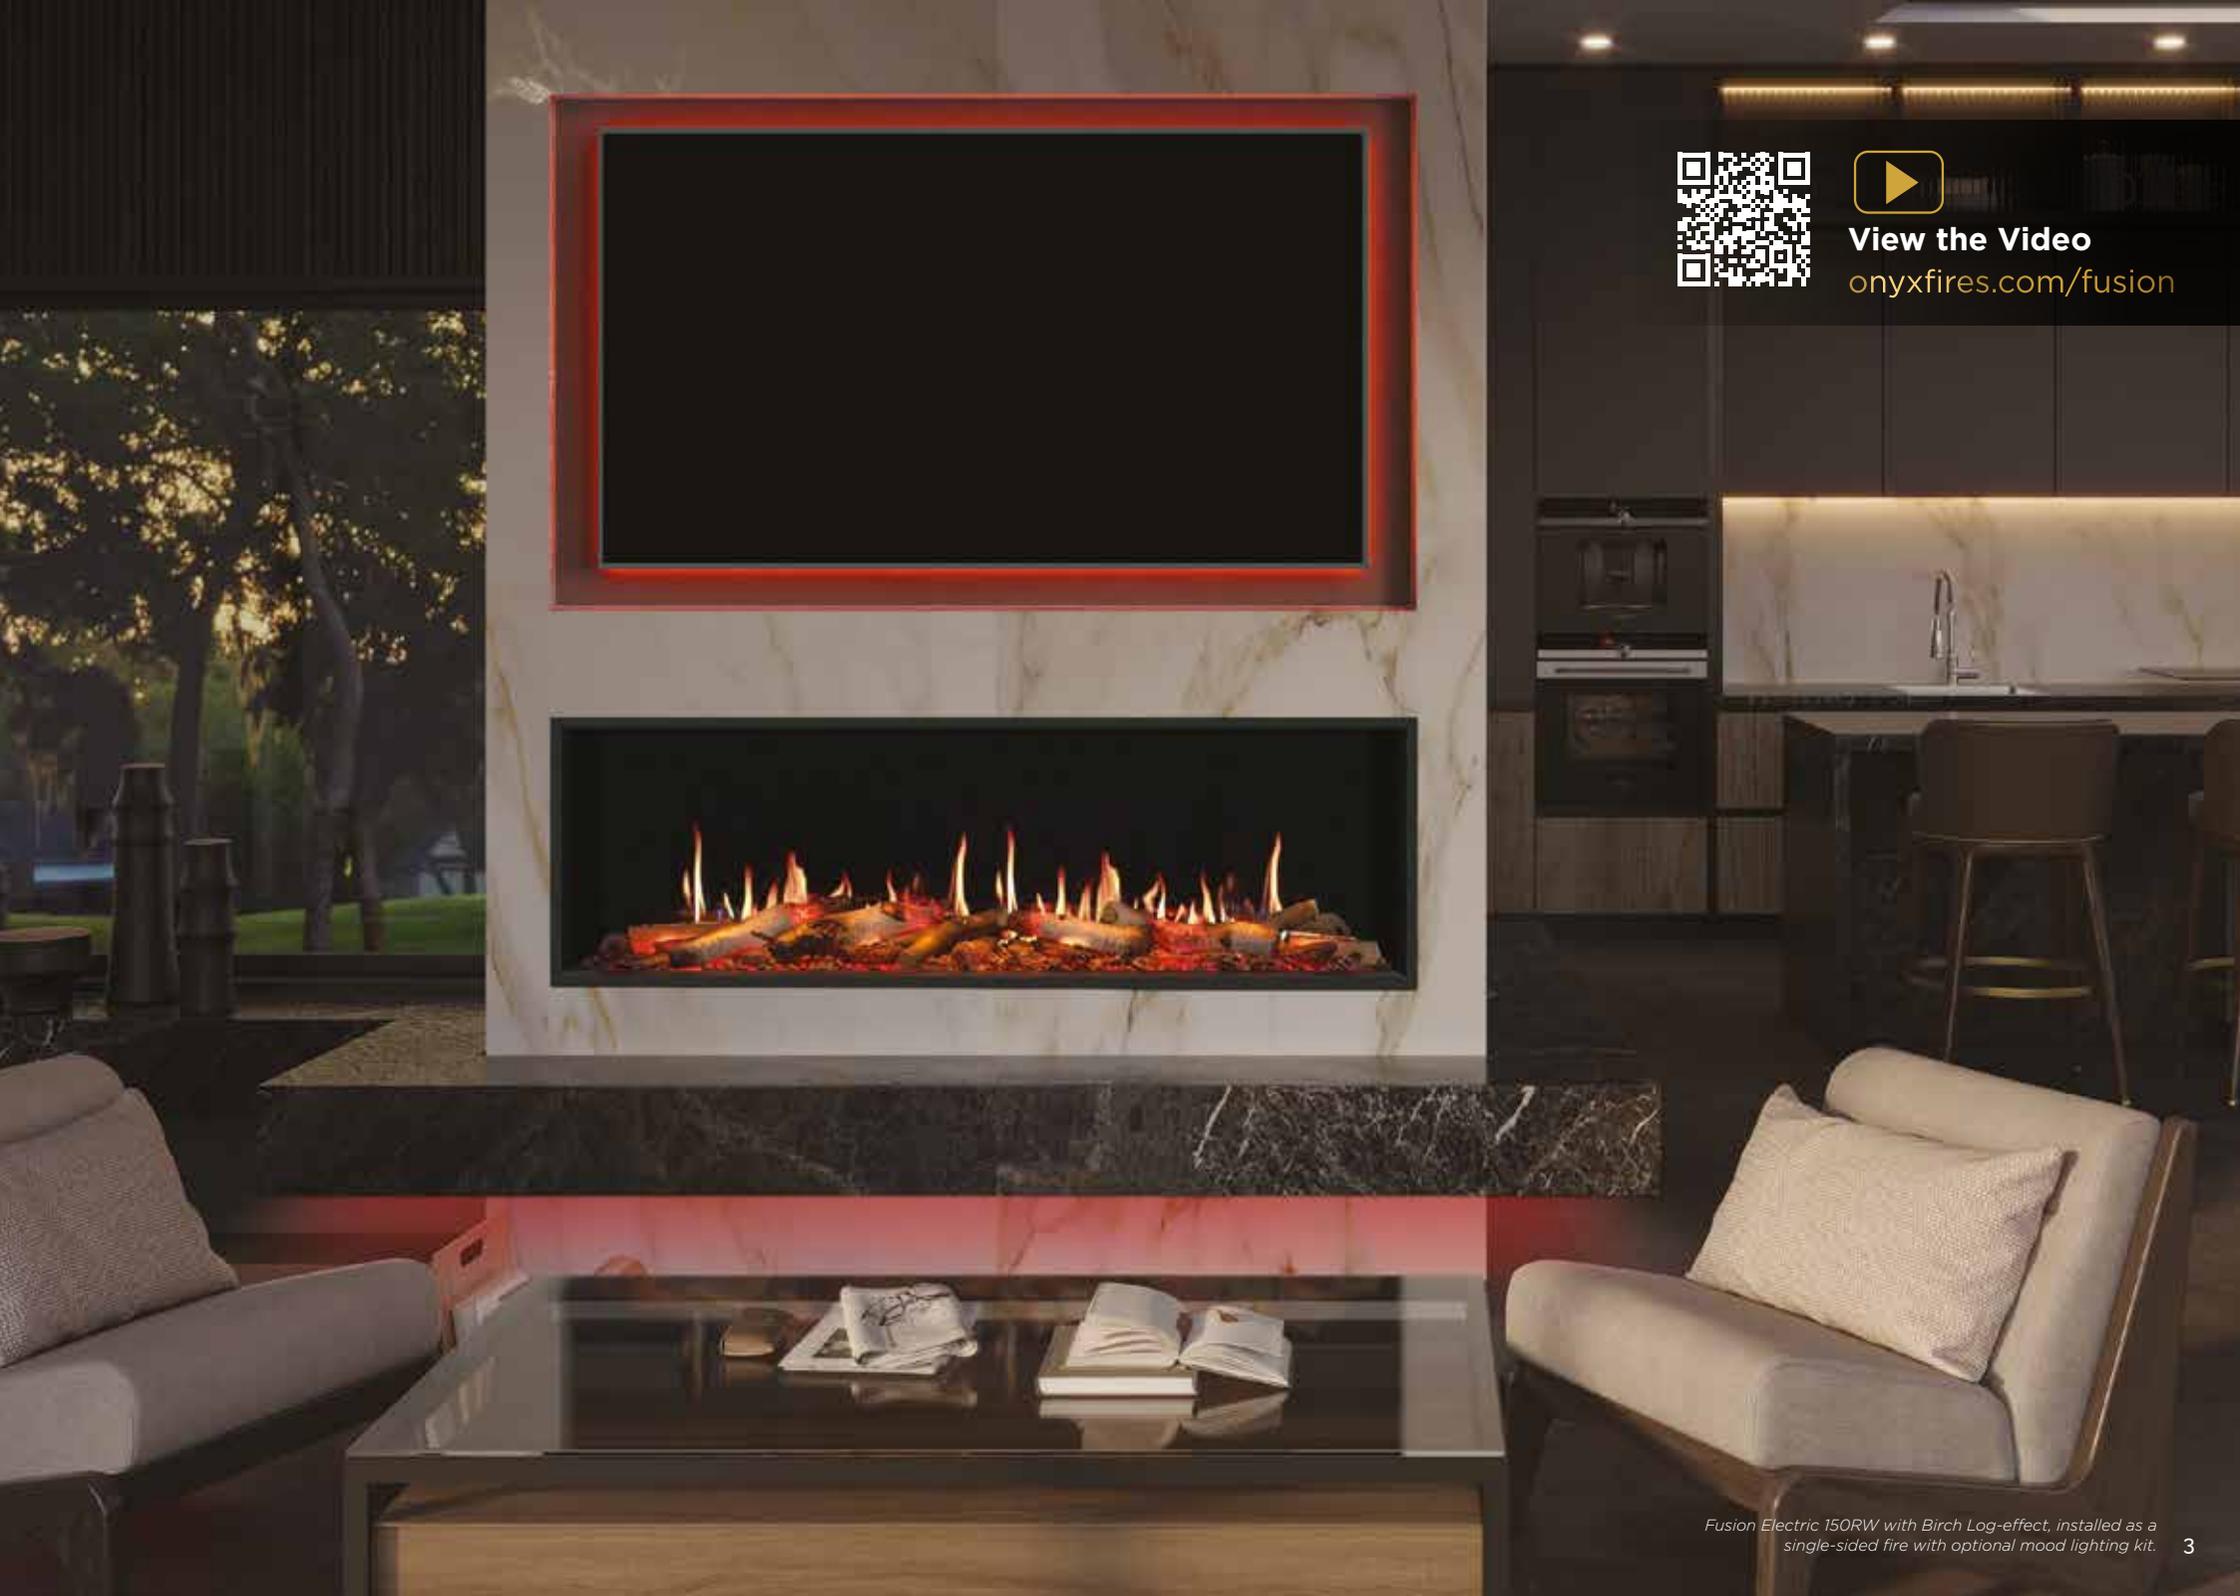

Indulge in the modern fireside experience with the Onyx Fusion Electric fire, bringing the allure of flickering flames to life using crisp visual technology. With a host of stunning features, this fire creates an unparalleled atmosphere that will transform your living space.

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class, award-winning products. The Fusion electric fire is no exception – selected as Gold winner for the 2025 London Design Awards in the Product Design category. **Find out more at onyxfires.com/awards.**

Fusion Electric 150RW with Birch Log-effect, installed as a single-sided fire with optional mood lighting kit.

The Fusion Experience

Experience the pinnacle of realism in electric fires with the Onyx Fusion 150RW, featuring our Authentic Flame Technology for a crystal-clear, immersive flame display.

Create the perfect ambience for your home and mood by choosing from multiple flame effects - from realistic flickering sparks and wisps of smoke to more contemporary, vivid visuals. Select from pre-set combinations or create and save your own, cycling through flame effects, downlighting colours, and brightness levels. Adjust fuel bed and glowing log colours independently, or synchronise them for a flawless effect.

Stunning log sets elevate the realism: the Luxury Logscape model intensifies the flames with its Real Woodland Log Set crafted from sustainably sourced British hardwood, while the Birch Log-effect model offers classic elegance with integrated log lighting.

App control on iOS and Android devices*

9 Quick-Start Pre-sets settings available (3 of which can be customised and saved)

Crystalline base with glimmering ember bed uplighting in 8 colours, plus spectrum mode

26.3cm

The Fusion has a slimmer depth than many other electric fires making it particularly suitable for those where space may be limited.

Innovative Ecodesign Energy Saving features for high efficiency, such as Open Window Detection and Adaptive Start Control. See page 6 for details

*Search for Mus Flame in the App Store/Google Play.

Made for Efficient Living

The Onyx Fusion is a zero direct emissions fire with stunning flame visuals and efficient heating. Intelligent features like open window detection, daily and weekly scheduling, and thermostatic control provide heat on demand while meeting strict Ecodesign standards. Adjust visual and heating settings by remote, or access advanced energy-saving features through the innovative app.

Comfort Through the Seasons

Enjoy your Fusion's visual effects with or without the heat, as well as set a handy countdown timer for your heating.

Thermostatic Heating

You can set your ideal room temperature, and the 2kW heater adjusts its power to maintain it efficiently. Using the app, benefit from Adaptive Start Control, where your Fusion calculates when to turn on before a pre-set time, ensuring your room reaches the desired temperature as you relax.

Open Window Detection

With Open Window Detection, if the ambient room temperature drops by 4°C within a space of eight minutes, the Fusion's heater will automatically turn off to save energy.

Zero-Emission Heating

The ultimate sustainable heating solution, Fusion Electric Fires deliver zero direct emissions, providing clean, efficient, and environmentally responsible warmth. When powered by renewable energy such as solar or wind, they offer an even greener way to enjoy comfort and ambience.

Experience the exceptional

When you choose Onyx, you are choosing more than just a fire or stove. You are choosing the very best of British innovation and quality. You are choosing prestige. As part of the Stovax Heating Group, Onyx represents the pinnacle of more than four decades of British design and engineering expertise. Every fire and stove is born in our state-of-the-art research and development laboratories, and incorporates industry leading technology and design.

The Stovax Heating Group is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations, with all fires bearing the CE and UKCA mark.

The Onyx Promise

Your Onyx retailer will provide you with a Five-Year warranty, extending your standard warranty from two to five years when you register with Onyx. This warranty includes a consumables guarantee for the first year - see online for further details at onyxfires.com/warranty

Expert Retailer Network

We take great care to ensure that our fires are designed, tested, and manufactured to the highest possible quality and safety standards. We are just as determined to make sure they are sold and installed correctly so that you will enjoy years of pleasure from your purchase. Accordingly, you will find the Onyx Fusion Electric is exclusively available from our experienced, independent retailers' showrooms. Find your nearest retailer by visiting: onyxfires.com/retailers

Fusion Electric 150RW with Birch log-effect, installed as a two-sided corner fire with optional mood lighting kit.

Innovative App

Designed from the ground up to be driven with a powerful app, the Fusion's full potential can be unlocked with an iOS or Android smart device – giving you all the functionality of the remote control and more.

Easily program your fire to provide different heating and flame schedules using the app. Create up to four daily heating schedules to suit your lifestyle, with room to save up to three weekly programs.
