## The Art of Illusion

Drawing on our mastery in fire innovation, we know how to perfect the ideal fire. With our expertise in design and engineering, we have transposed the beauty of a living flame into a striking electric format.

Enter the Onyx Mirage 40i – an electric fire that delivers the very art of illusion. This cutting-edge fire embodies the ambience and warmth of a real flame through advanced patented technology, with zero direct emissions. The result is an experience that transcends the boundaries of electric fire technology, transforming your space into a sanctuary – all with the benefit of on-demand heat and energy-saving innovation.

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class, award-winning products. The Mirage 40i is no exception – selected as Gold winner for the 2025 London Design Awards in the Product Design category.

# Unparalleled flame experience

With 16 log and ember bed colour options, adjustable brightness, and pulsing speeds, this fire offers a wealth of customisation. What's more, there are five flame presets to choose from, with most mirroring the natural lifecycle of a real fire.

## The Rhythm of Natural Fire

Choose between a roaring high burn, medium, a lazy low burn, ember glow, or even the ultra-modern Aurora alternative setting.

**High Burn**

**Medium Burn**

**Low Burn**

**Ember Glow**

**Aurora**

## Slim design

With an exceptionally slim profile requiring just 75mm of recess, the Mirage 40i is ideal for the typical 16-inch fireplace opening, whether an upgrade to a traditional fireplace, or a brand-new installation.

 **SLIMdepth**

# Patented Technology. Perfected Ambience.

At its heart is our innovative, patented Mirage Virtual Flame System – delivering a breathtaking illusion using real captured visuals of a perfectly constructed real fire, lapping across burning logs and recreating the natural cadence of living flames.

The exposed, hand-painted, log-effect matches and is precisely modelled on the firewood shown in the flame visuals, enhancing the feeling of depth and movement. An array of lifelike media, crafted from glass and vermiculite, complete the ember bed, all resulting in an immersive, lifelike firebox.

# Designed today, made for tomorrow

Along with stunning visuals, the Mirage 40i is a zero-emission electric fire designed to fit seamlessly into today's home standards. Intelligent energy-saving features like open-window detection, and thermostatic control, make it ideal for zonal heating – delivering efficient warmth on demand, while minimising energy wastage and complying with strict Ecodesign energy standards..

## Comfort Through the Seasons

The Mirage 40i allows you to switch the heat off entirely for solely the visual experience, making for year-round ambience whatever the weather.

## Fan-only Mode

The Mirage 40i features a fan-only setting, which allows for gentle air circulation. This lets you enjoy the ambience of the flame, even in the height of summer.

## Open Window Detection & Deep Sleep Mode

When there is a rapid drop in temperature, such as when a window is opened, the Mirage 40i detects this, and the heater switches off to conserve energy. Resume heat easily via the remote or app. Also, ensuring energy efficiency, an automatic deep sleep activates when the fire has been on standby for 30 minutes or more.

## Efficient Thermostatic Heating

Simply set your preferred room temperature up to 28°C, and the Mirage will employ its powerful 2kW heater to reach and thermostatically maintain it.

## Zero-emission Heating

The ultimate sustainable heating solution, Mirage 40i Electric Fires deliver zero direct emissions, providing clean, efficient, and environmentally responsible warmth. When powered by renewable energy such as solar or wind, they offer an even greener way to enjoy comfort and ambience.

## Complete Control

Whether you use the remote control, or our intuitive app, adjusting the atmosphere is simple. Access the various functions of your fire, from adjusting the visuals and personalising the flame presets to suit your own taste, to accessing the heating settings, including thermostatic heating and open window detection.

The app gives you further access to the advanced functions, including daily and weekly scheduling for precise integration into your lifestyle and heating needs.

# Experience the exceptional

When you choose Onyx, you are choosing more than just a fire or stove. You are choosing the pinnacle of British innovation and quality. You are choosing prestige.

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class flame effect fires. Every fire and stove is born in our state-of-the-art research and development laboratories, and incorporates industry leading technology and design.

Offering a renowned and varied product range, the Stovax Heating Group's portfolio includes everything from the traditional to the ultracontemporary in a wide array of styles and sizes. Full details of the Stovax Group's range of products can be found at: [stovax.com](http://stovax.com).

The Stovax Heating Group is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations, with all fires in this brochure bearing the CE and UKCA mark. Similarly, our environmental management systems ensure we work in a sustainable manner, whilst endeavouring to protect the environment by minimising any possible impact from our operations.

We are proud to be part of the award-winning Stovax Heating Group, recognised for our high-quality products and innovative technology. Find out more at [onyxfires.com/awards](http://onyxfires.com/awards)

## Expert Retailer Network

We take great care to ensure that our fires are designed, tested, and manufactured to the highest possible quality and safety standards. We are just as determined to make sure they are sold and installed correctly so that you will enjoy years of pleasure from your purchase. Accordingly, you will find the Onyx Mirage 40i Electric is exclusively available from our experienced, independent retailers' showrooms.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online. We would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered

by one of our qualified, independent retailers. In addition, Onyx fires purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found on

[onyxfires.com/warranty](http://onyxfires.com/warranty)

*Mirage 40i Electric, with Hightlight Polished Chartwell Front. Shown with Grafton Limestone Mantel with Belgravia London cast front.*

## The Onyx Promise

Your Onyx retailer will provide you with a Five-Year warranty, extending your standard warranty from two to five years when you register with Onyx. This warranty includes a consumables guarantee for the first year - see online for further details at

[onyxfires.com/warranty](http://onyxfires.com/warranty)

# Technical Information

## Dimensions & Product Codes

All dimensions are in mm. Dimensions shown are fire only before fitting the decorative front façade.

The above technical information is to assist you when choosing your ideal fire. It is not intended to be all the information required to install your fire or stove, this can be obtained from your local Onyx retailer, or you can view/download the relevant full installation instructions from the Onyx website at [onyxfires.com](http://onyxfires.com)
