BELLFIRES GAS FIRES  
RETAIL PRICE LIST  
1st FEBRUARY 2024

### BUILT-IN GAS FIRES - BALANCED FLUE - SINGLE SIDED FIRES (FRONTAL)

These appliances are designed to be built in to new studwork chimney breasts, connected to a Bellfires concentric flue system.

#### ORIGINAL BELL

Balanced flue gas fires with thermostatic remote control & double burner as standard. Order balanced flue components from the list on page 10.

**Specify from the list of products below:** Model • Frame Style • Glass Type • Interior Panels

**MUST also specify on order:** Natural Gas or LPG • Wood Logs, Grey Stones or Marble Shingles • Line Fire, Centre Fire or Premium Fire\*

\* If choosing Premium Fire (not available for Topsham Small) add the surcharge from the optional accessories. Note that Premium Fire needs an electrical connection.

### BARBAS GAS FIRE FRONT with Premium Fire 2

Balanced flue gas fires with thermostatic remote control & Premium Fire 2 burner as standard. Order balanced flue components from the list on page 10.

The complete technology has been concealed in the appliance itself, making a wall access panel superfluous.

**Specify from the list of products below:** Model • Frame Style • Glass Type • Interior Panels. **MUST also specify on order:** Natural Gas or LPG

All models come as standard with: Premium Fire 2 • Logs (black) • Polished Glass • Plain Background

## CHIMNEY BREAST VENTILATION

For Balanced Flue Gas Fire (Built-In or Insert) being installed into new studwork, the chimney breast **MUST** be ventilated by installing 4 air vents (2 below & 2 above the appliance) to prevent excessive heat build up.

Choose the following parts from the list of Designer Vents below: 4 x Airbox 160, 4 x 160 Inserts (choose a style and colour) and 4 x Brackets for Insert 160

Alternatively, order 4 x STUV-12001007 (Grille Simple White 180 x 70mm) at £31.00 inc VAT each.

## CONVECTION OPTIONS FOR BUILT-IN GAS FIRES - BALANCED FLUE

A convection kit is **STRONGLY RECOMMENDED**. These appliances will be radiant heat only if a convection kit is not fitted.

Order **ALL** of the parts in the list below to convert the appliance to a convection model.

Note that the parts below must be fitted in addition to the chimney breast ventilation detailed above. This will mean that there will be 3 vents on each side of the studwork chimney breast (4 for ventilation and 2 for convection) in addition to the appliance control box.
