ONE STONE AHEAD

A group's success is determined by the harmony and synergy of all those involved.

Der Erfolg einer Gruppe hängt von der Harmonie und der Synergie aller beteiligten Personen ab.

Il successo di un gruppo dipende dall'armonia e dalla sinergia di tutti i soggetti coinvolti.

Destination

Quartzforms

A favourable location where strategic communication routes intersect. A production process that relies heavily on energy from renewable sources, such as wind, solar and biomass. Almost complete recycling of water used by the systems. A constant commitment to research and innovation. All this to create and offer you a mineral surface of priceless beauty: Ecotone™. For us, it is the culmination of a path that began in 1981 and continued until Quartzforms® was created in 2010, the year we acquired the Bretonstone® production plant in Germany. Today, our primary goal is product excellence achieved with minimal impact on the environment. We are well on track, and aware that there is still room for improvement. We do this for ourselves, for future generations and for a planet to which we want to give back, at least in part, the gifts it gives us.

Eine günstige Lage an der Kreuzung strategischer Verkehrswege. Ein Produktionsverfahren, das zum Großteil Energie aus erneuerbaren Quellen wie Wind-, Sonnenkraft und Biomasse einsetzt. Eine fast vollständige Rückführung des von den Anlagen verwendeten Wassers. Ein unablässiges Engagement in Forschung und Innovation. All dies, um einen Engineered Stone von unschätzbare Schönheit herzustellen und Ihnen anzubieten: Ecotone™. Für uns ist das Ziel eines 1981 begonnenen Weges erreicht, der bis zur Entstehung von Quartzforms® 2010 fortgesetzt wurde, dem Jahr, in dem wir die Produktionsanlage Bretonstone® in Deutschland gekauft haben. Heute ist unser vorrangiges Ziel die Exzellenz des Produkts, bei dessen Entstehung die Umweltbelastung auf ein Mindestmaß begrenzt wird. Wir haben viel erreicht und sind uns bewusst, dass man es noch besser machen kann. Wir tun dies für uns, für die kommenden Generationen und für einen Planeten, dem wir zumindest zum Teil das zurückgeben möchten, was er uns schenkt.

Una posizione favorevole, all'incrocio di strategiche vie di comunicazione. Un processo produttivo che si avvale in larga parte di energia da fonti rinnovabili, come l'eolico, il solare e la biomassa. Il riciclo pressoché totale delle acque utilizzate dagli impianti. Un costante impegno nella ricerca e nell'innovazione. Il tutto per realizzare e offrirvi un'engineered stone di inestimabile bellezza: Ecotone™. Per noi è il punto d'arrivo di un percorso iniziato nel 1981 e proseguito fino alla creazione di Quartzforms® nel 2010, l'anno in cui abbiamo acquisito l'impianto produttivo Bretonstone®, in Germania. Oggi il nostro obiettivo prioritario consiste nell'eccellenza del prodotto conseguita riducendo al minimo l'impatto sull'ambiente. Siamo a buon punto, e consapevoli che si può migliorare ancora. Lo facciamo per noi stessi, per le generazioni future e per un pianeta al quale vogliamo restituire, almeno in parte, i doni che elargisce.

Spaces where materials of different nature coexist and influence each other.

Räume, in denen Materialien unterschiedlicher Natur nebeneinander bestehen und einander beeinflussen.

Spazi in cui materie di natura diversa coesistono e si contaminano a vicenda.

Ecotone™

One Stone Ahead

There is a growing need to reconsider the relationship between natural and artificial to create spaces where materials of different natures coexist and enhance each other. Quartzforms® took this concept further through research and experimentation, making the first Ecotone™ slabs with a more sustainable formula to reduce their environmental impact.

Das Bedürfnis, die Beziehung zwischen dem Natürlichen und Künstlichen neu zu überdenken, wird immer stärker, um Räume zu gestalten, in denen Materialien unterschiedlicher Natur nebeneinander bestehen und einander beeinflussen. Quartzforms® beschäftigt sich mit diesem Konzept und produziert dank des Forschens und Experimentierens die ersten Platten mit Ecotone™, einer nachhaltigeren Formel unter Berücksichtigung der Auswirkungen auf die Umwelt.

É sempre più forte il bisogno di riconsiderare il rapporto tra naturale e artificiale per creare spazi in cui materie di natura diversa coesistono e si contaminano a vicenda. Quartzforms® ragiona su questo concetto e grazie ad un lavoro di ricerca e sperimentazione produce le prime lastre in Ecotone™, una formulazione più sostenibile e attenta all'impatto sull'ambiente.

Ecotone™ Composition

This has led to Ecotone™, the new generation of slabs containing recycled glass, bio-based resin and less than 5% silica*.

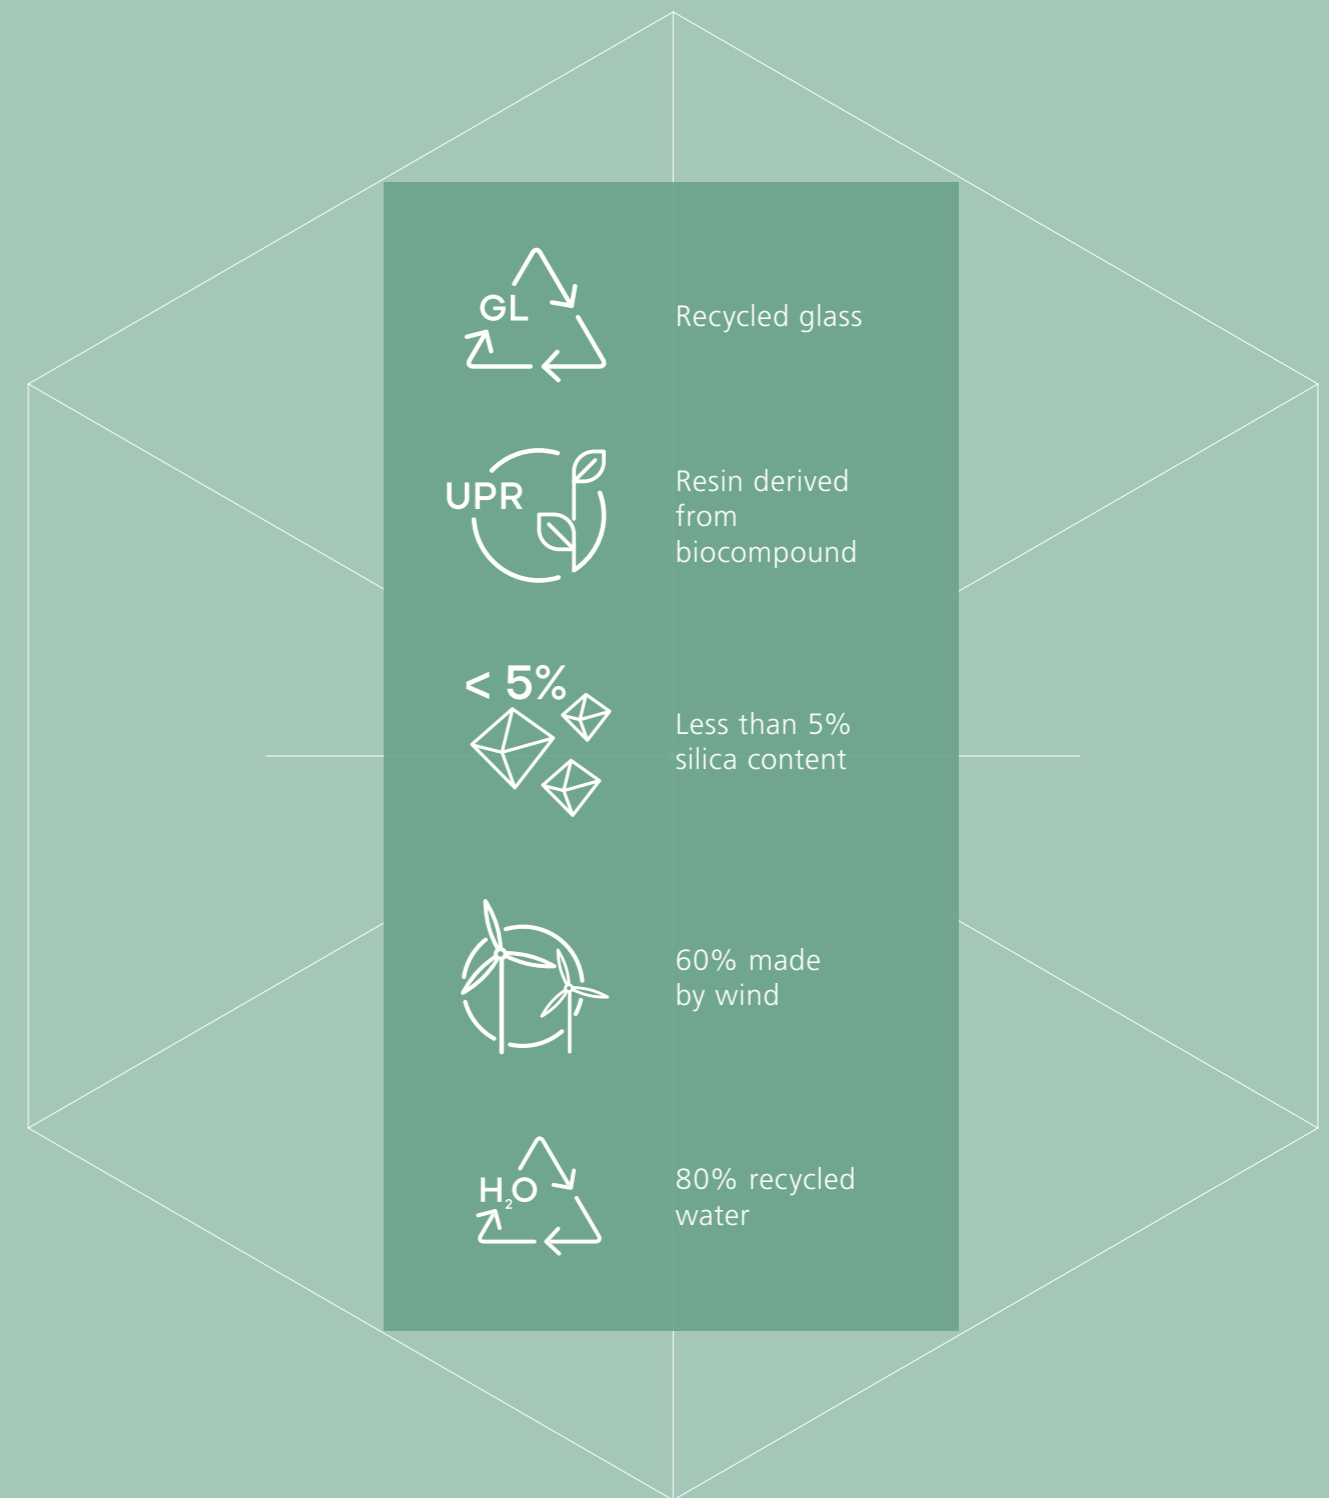

In nature, an ecotone is a transition area between two ecosystems or distinct entities; similarly, this collection aims to represent a transition from a traditional manufacturing process to one that is more respectful of our planet.

So entsteht Ecotone™, die neue Plattengeneration mit einem aus recyceltem Glas, Bio-Compound gewonnenen Harz und einem Siliziumdioxid-Inhalt von weniger als 5 %.*

Wie in der Natur verkörpert der Ökoton die Übergangszonen zwischen zwei Ökosystemen oder zwei verschiedener Einheiten, und diese Kollektion möchte einen Übergang von einer traditionelleren Produktionsmethode zu einer umweltfreundlicheren darstellen.

Nasce così Ecotone™, la nuova generazione di lastre con vetro riciclato, una resina derivata da bio compound e con un contenuto di silice inferiore al 5%.*

Come in natura, l'ecotono rappresenta l'ambiente di transizione tra due ecosistemi o due entità distinte, così questa collezione vuole rappresentare un passaggio tra una modalità di produzione più canonica ad una che rispetti maggiormente il nostro pianeta.

An original perception of beauty

The New Era collection interprets various styles with 8 different Ecotone™ slabs, fully expressing the know-how and unparalleled aesthetic value that have always been the hallmarks of Quartzforms®. The fusion of various elements results in their revival in renewed forms: this is the timeless fascination of transformation. Gold is a luminous slab, featuring through veins in warm shades, whereas the sea green colour of Atlantis is crossed by very fine and sparse pale striations. Glimmers of light suddenly emanate from grey Mystic; the anthracite black of Nirvana is illuminated by a textured fleeting glow. The essential nature of Lasa combines a neutral background with pale veins, whereas Poseidon conveys cooler, geometric sensations while ensuring elegant, refined neutrality. The splendour of Mahal merges pink shades with vibrant golden undertones; Crono is a blend of dark hues, full of charm and nuances. Eight captivating surfaces, with classic interpretations and contemporary moods.

Die Kollektion New Era interpretiert verschiedene Stile mit 8 unterschiedlichen Platten aus Ecotone™, die das Know-how und den unvergleichlichen ästhetischen Wert zum Ausdruck bringen, der Quartzforms® seit jeher auszeichnet. Die Verschmelzung verschiedener Elemente gipfelt in der Wiedergeburt in einer neuen Erscheinung: die ewige Faszination der Metamorphose. Gold ist eine leuchtende Platte, die sich durch durchgehende Äderungen in warmen Tönen auszeichnet. Das Meergrün von Atlantis dagegen ist von überaus feinen und raffinierten hellen Streifen durchzogen. Aus dem Grau von Mystic erscheinen urplötzliche Lichtblitze. Das schwarze Anthrazit von Nirvana wird von einer Textur flüchtiger Schimmer erhellt. Der essenzielle Charakter von Lasa verbindet einen neutralen Untergrund mit leichten Äderungen, während Poseidon kühlere und geometrischere Empfindungen vermittelt, doch gleichzeitig eine elegante und ausgesuchte Neutralität garantiert. Die Pracht von Mahal verbindet rosarote und schwingende goldene Echos. Crono ist ein Eintauchen in dunkle Töne, voller Faszination und Schattierungen. Acht verführerische Oberflächen zwischen Zitaten der Klassik und zeitgemäßen Stimmungen.

La collezione New Era interpreta diversi stili con 8 differenti lastre in Ecotone™, che esprimono ai massimi livelli il know how e l'ineguagliabile valore estetico che da sempre contraddistinguono Quartzforms®. La fusione fra diversi elementi culmina nella loro rinascita sotto rinnovate sembianze: è il fascino eterno della metamorfosi. Gold è una lastra luminosa, distinta da venature passanti dai toni caldi; il verde marino di Atlantis è solcato invece da finissime e rarefatte striature chiare. Dal grigio di Mystic trapelano improvvisi lampi di luce; il nero antracite di Nirvana è illuminato da una texture di sfuggenti bagliori. L'essenzialità di Lasa unisce uno sfondo neutro e venature leggere, mentre Poseidon restituisce sensazioni più fredde e geometriche pur garantendo una neutralità elegante e ricercata. Lo splendore di Mahal unisce nuance rosate e vibranti echi dorati; Crono è un'immersione nelle tinte scure, piene di fascino e sfumature. Otto superfici seducenti, tra citazioni della classicità e mood contemporaneo.

An interplay of balance with subtle shades, tending towards cool sensations without sacrificing impeccable neutrality, and bold streaks, aspiring to a certain geometrical quality yet remaining free and creative in essence. Poseidon is contemporary and bold, a slab that can be easily interpreted in any context.

Ein ausgewogenes Spiel zwischen zarten Nuancen, die ins Kühle spielen, ohne auf eine tadellose Neutralität zu verzichten, und entschiedene Eindrücke, die zu einem gewissen geometrischen Charakter tendieren, doch in ihrem Wesen frei und kreativ bleiben. Poseidon ist zeitgemäß, entschieden und gleichzeitig eine leicht an jeden Kontext anpassbare Platte.

Un gioco di equilibrio tra nuance delicate, che virano su sensazioni fredde senza rinunciare a una impeccabile neutralità, e guizzi decisi, che aspirano a una certa geometricità ma rimangono liberi e creativi nella loro essenza. Poseidon è contemporaneo, deciso, e allo stesso tempo è una lastra facilmente interpretabile in ogni contesto.

A luminous touch of elegance. An intangible representation of textured sensations and impressions coming from afar, which become protagonists in highly appealing spaces. Mahal features sinuous pink nuances that glow due to gold undertones, for a sophisticated, shiny and original effect.

Ein leuchtender Hauch von Eleganz. Eine kaum wahrnehmbare Darstellung von Gefühlseindrücken und plastischen Suggestionen, die aus der Ferne kommen und in Räumen voller Faszination im Mittelpunkt stehen. In Mahal erstrahlen die Windungen rosaroter Nuancen durch Echos von goldenen Tönen und bieten ein erlesenes, leuchtendes und originelles Ergebnis.

Un luminoso soffio di eleganza. Un'impalpabile rappresentazione di sensazioni e suggestioni materiche che vengono da lontano e diventano protagoniste in spazi ricchi di fascino. Dimension: 320 x 155 cm (126" x 61") Thickness: 2 cm - 3 cm (¾" - 1 ¼")*

The green colour of Atlantis is dream-like and elusive: an ephemeral chromatic perception, evoking the luminous transparency of seawater. Scattered with tiny contrasting dots, it is crossed by fine light-coloured through veins that create subtle and delicate interlacings. A precious, elegant slab with distinct appeal.

Das Grün von Atlantis ist träumerisch und flüchtig: eine kurzlebige Farbwahrnehmung, die leuchtende Transparenz des Meerwassers ins Gedächtnis ruft. Sie ist mit winzigen Kontrastpunkten übersät und von feinsten durchgehenden, hellen Aderungen durchzogen, die raffinierte und zarte Verflechtungen andeuten. Eine kostbare, elegante und charaktervolle Platte.

Il verde di Atlantis è onirico e sfuggente: un'effimera percezione cromatica, che evoca la trasparenza luminosa dell'acqua marina. Cosparsa di minuscoli punti a contrasto, è solcata da finissime venature passanti chiare che delineano rarefatti e delicati intrecci. Una lastra preziosa, elegante, di carattere.

It is said that black and white are two extremes, between them lies an endless range of shades of grey. Mystic is the new interpretation of this concept: a slab expresses warmth, depth and style, as it has a texture that is a harmonious alternation of chiaroscuro effects.

Es heißt, dass Weiß und Schwarz zwei Extreme sind, zwischen denen ein unendliches Spektrum von Grautönen liegt. Mystic ist die neue Auslegung dieses Konzepts: eine Platte, die Wärme, Tiefe und Stil dank einer Textur zum Ausdruck bringt, auf der sich helle und dunkle Kontraste harmonisch abwechseln.

Si dice che il bianco e il nero siano due estremi, fra i quali si estende una gamma infinita di sfumature di grigio. Mystic è la nuova interpretazione di questo concetto: una lastra che esprime calore, profondità e stile, grazie a una texture che alterna armoniosamente i chiaroscuri.
